### RADON STUDY

### WEST HARTFORD PUBLIC SCHOOLS

**Bid # 6173F**

**November 5, 2010**

#### **Project Background**

The Town of West Hartford conducted an initial radon study of all the West Hartford Public Schools and the Board of Education Office in 2005. This study preceded the Connecticut Indoor Air Quality Act (PA 03-320) requiring all school systems to conduct an initial radon study. The study was accepted as satisfying the requirements of the Act to conduct the initial study.

The initial study did not include Bristow Middle School, a newly constructed building, and the leased space at Northwest Catholic School (STRIVE). Also, the former Board of Education building at 28 South Main Street in West Hartford, Connecticut has since been demolished and the BOE office is now located on the fourth floor of the Town Hall at 50 South Main Street in West Hartford, Connecticut.

The Town now intends to conduct another round of radon study in compliance with the requirements of Public Act No. 03-220, an Act concerning Indoor Air Quality in Schools that mandates an initial study and repeat studies every five years thereafter.

#### **Scope of Work**

The State of Connecticut Department of Public Health, Radon Program is in the process of revising the radon testing requirements for public elementary and secondary schools as contained with Connecticut General Statute Section 10-220 (d). This revision will require re-testing of schools very five years of 10% of the rooms that were tested during the initial testing in a randomized fashion. In addition, the rooms that had radon concentrations in excess of 4.0 pCi/L requiring radon mitigation have to be retested. The second five year test will include a new set of 10% of the rooms that were not tested earlier plus the rooms with initial elevated radon levels and so on. Each round will include analysis of 10% "duplicate", 5% "blanks" and "spike" samples as required.

As Bristow Middle School and STRIVE facility at Northwest Catholic School were not tested earlier, these two buildings will require initial testing. All other buildings will require re-testing. The testing shall include initial measurements and any follow-up measurements as might be necessary for test locations where the initial test readings are 3.5 pCi/L or higher.

All the rooms need to be tested simultaneously both for initial and re-testing. Connecticut DPH requires that testing be conducted under: 1) closed conditions (closed windows/doors except for normal exit/entry), 2) during colder months (Late November after Thanksgiving through March) and 3) during weekdays (with the school in session). **All the testing and re-testing must be completed by March 31, 2011.** Final report shall identify sample locations on the floor plans.

The consultant shall fill out and sign the CT DPH School Radon Testing Report Form and submit to the appropriate authority within five (5) working days of providing the Town with a complete report.

Following are the buildings that will require initial/retesting:
